

The Prez Sez

As I write this I am looking at my Weather Monitor and it's reading 37 Degrees. So Fall is in the air! Last night several of us (about 12) from the Silver Comet Club; The North Fulton Club; And the W4IBM Club finished up with the

Halloween Hikes. It was GREAT !

So now on to some of our Fall activities. We are now at the end of October and only a couple of more days left in our 3rd Annual AM DX Contest. Who is going to win this year?

Please mark your Calendars, for November 7th, our next General Meeting. This will be a very important meeting. One of the items on the Agenda will be discussions concerning our upcoming annual Christmas Dinner and election of 2018 Officers and Board members.

We will also be making arrangements for the upcoming Tours at the National Weather Service and the Air Traffic Control centers this November 9th.

There is a lot going on this next month, I hope to see all of you at our next Meeting... 7:00 PM November 7th at the Paulding County Chamber of Commerce.

John Reynolds - W4TXA, President

W4RSC "Radio Silver Comet"

The Silver Comet ARS Inc. a 501 (c) (3) Not for Profit Organization

Election of Officers for 2018!

At our next meeting on November 7th, additional nominations will be taken and voting will take place for our 2018 Officers and Board Members. So far the Ballot reads:

John Reynolds, W4TXA (for President)
James Akey, KM4IKO (for Vice-President)
Rick Bowhall, KM4ZMW (for Secretary)
Dave Fuller, K4DMF (for Treasurer)

At this time all of the above Officers are running un-opposed.

There are three nominees for the two open Board positions. They are:

Dave Walk – K4BBH
Chuck Duvall – K4CGA
Larry Crichton – K4LDC

The floor will be open for any additional nominations until the vote. So, please try to make this meeting. The elected nominees will assume their duties on January 1st, 2018.

Filler Stuff

If there had been no “STAR WARS” movie, what would “DSTAR” have been called?

If there had been no “STAR WARS” movie, what would DSTAR’s garbled signals been called? Certainly not “R2D2”?

These very important and thought provoking questions were asked by K-MOM, Bea West. (WB3ILX’s better half). Anyone have a good answer?

.....

From Lee WB4QOJ

“Would like to remind everyone that I have been running a DX Cluster Node since 2014. If you would like to use it please jump in. The CC Cluster Node averages worldwide over 450 nodes and 5000 plus users. Every mode and contest on the air. Please feel free to use this asset that is available to our club 24x7.”

Repeater Status

146.955 Tower Raising Party!

Open letter from Lee WB4QOJ and Neal KC4YCM

Both of us want to THANK everyone involved in the 955 repeater antenna -- tower construction. It was really great to see everyone come together and enjoy the fellowship and the interest and getting the repeater back online. There were a lot of folks involved and myself and Neal want to thank EVERYONE. This project has taken a long time and a lot of effort. And a special THANKS goes out to John Morgan K4SSE and for his Great Company and his Top Notch Crew. John's professionalism really shined during this project and I think all of us really appreciate all of his efforts from start to finish. HATS OFF TO YOU!!

(Now just a word from myself, WB4QOJ. I want to express my BIG thank you to Neal KC4YCM. Neal has been extremely instrumental in keeping 955 going with the new Master 3 equipment and Duplexer tuning and Equipment tweaking and all of the other technical aspects of the repair and upkeep. Without Neal's expertise and keeping the dream alive 955 would not be where it is today. Neal, THANK YOU..THANK YOU.. THANK YOU.)

Neal is scheduled to move the Repeater and Duplexer next Monday starting at 10am. So by Monday afternoon we should be operational. HURRAY!!!

So as we move to years end and 2018 is in the windshield, let's all enjoy and make the RF from 955 be a fun place to be and ENJOY with chats and nets and Great conversations.

73's to all.

Lee and Neal

955 Owners/Trustee

Short YouTube video of the top notch 146.955 tower raising team. They made it look easy! https://youtu.be/V9gow0XO_hI Enjoy. 73, Larry, K4LDC

Here are a few more pics to the fun we all had.

For more Pics go to the SCARS website:

Date: Oct 23, 2017 6:58 AM

Subject: [skcc] October SKS

To: <SKCC@groups.io>

Cc:

Gang!

The Dit-Dah CW Gang...aka KS8KCC...will be the bonus station for October's SKS. We're an active group and enjoy running multi-multi in the SKS. Here is your chance to "shoot us up" and to capture a nifty certificate. We'll be on at least three bands (80, 40, 20m) and if 20m folds the last half hour we'll switch to 160m. Work us once, work us three or four times and you can download this beautiful PDF certificate for your shack...absolutely free! The certificate will be on line for one month only so get it while it's hot!

Here is the link to download the certificate: <https://www.qrz.com/db/ks8kcc>

Come join the fun...our dits and dahs are loaded and the gang is waiting to shoot you a QSO! de....73, The Dit-Dah CW Gang

Compliments of WB4QOJ.....

More on CW!

A Tribute to Morse Telegraphy and Resource for Wire and Wireless Telegraph Key Collectors and Historians

Welcome to The Telegraph Office. Whether you are a collector, historian or have a casual interest in the many facets of wire and wireless telegraphy, you will find something of interest here. Many resources are presented. You should be able find information about an old telegraph key or other artifact that you have.

HAMJAM 2017

It's All About Youth!

Saturday, November 11, 2017 8:00 - 1:00pm

Mill Springs Academy, 13660 New Providence Road, Alpharetta, GA 30004

Presented by North Fulton Amateur Radio League

Endorsed by:

SouthEastern DX Club, Alford Memorial Radio Club, Atlanta Radio Club, Chattanooga Amateur Radio Club, Cherokee Amateur Radio Society, Gwinnett Amateur Radio Society, North Georgia QRP Club, Sawnee Amateur Radio Society, Kennehoochee Amateur Radio Club, Silver Comet Amateur Radio Society

HamJam 2017 is an effort by North Fulton Amateur Radio League (NFARL) to promote amateur radio in the southeast US by bringing respected contributors to amateur radio to our local community.

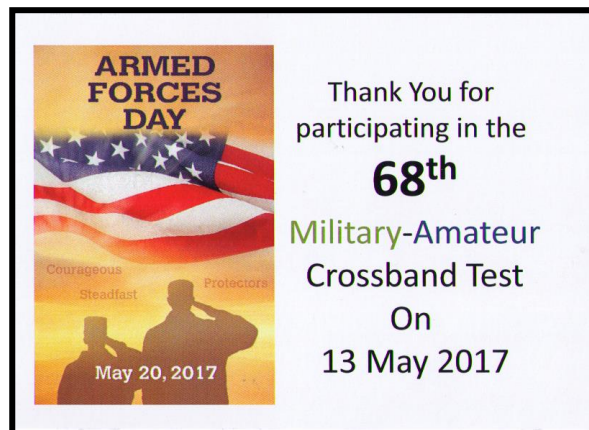

Net proceeds will be donated to the NFARL scholarship funds.

- The inaugural edition in 2009 featured Joel Hallas W1ZR. His presentation, "The Doctor is In", was based on his QST Magazine column of the same name. Over 200 people attended the event which was held at the Roswell Georgia City Hall. Joel's stimulating presentation was well received and we received many requests to hold a similar event in 2010.
- HamJam 2010 was expanded to three speakers, and the Southeastern DX Club teamed with the North Fulton Amateur Radio League to put on the event. It was held at the Georgia Institute of Technology College of Management's LeCraw Auditorium. HamJam 2010 featured:
 - Joe Taylor K1JT who presented "Advances in Weak Signal Communication"
 - Ward Silver N0AX who presented "What Does it Mean", and
 - Hal Kennedy N4GG who gave a short introduction and demonstration of his Blue Lightning spark gap transmitter.

For more details: <http://hamjam.info/about.htm>

Armed Forces Day 2017!

For those of us that participated in the 2017 Armed Forces Day Crossband Test, we are now starting to received the QSL cards in our mailbox.

New Amateur Bands!

<https://utc.org/plc-database-amateur-notification-process/>

Above is the link to register to transmit on the new amateur allocations of 630 Meters & 2200 Meters (135.7-137.8 kHz & 472-479 kHz). This is a database managed by the Utilities Technology Council and you HAVE to register BEFORE you can transmit. I have seen recommendations that all hams should register even if they have no interest in transmitting.

Neal KC4YCM

SCARS 3rd Annual Broadcast Band DX Contest!

The annual AM Broadcast Band DX Contest is almost over. Hope you joined in the fun. There are rumors of some big scores out there and a new winner this year. Stay "tuned" for the results.

Weak Signal Rag Chew? FT8 Alternative?

Contributed by Lee WB4QOJ.....Interesting from Hamradioconcepts You Tube Channel.

So many people have started using FT-8 on HF, but they leave all the other modes to die off, like Olivia. Olivia isn't new, but it offers the weak signal efficiency and decoding in poor conditions while giving you some rag chew, not just zombie mode call sign exchange. Check out this video to learn more, and I hope to see you on Olivia. Below are some links for the band plans and more information.

For more information: <https://m.youtube.com/watch?v=ybupVq22dpg&feature=youtu.be>

Tax Tip 2017-59 as applied to SCARS

While I know this is not directly related to radio, the information below has some good resources for dealing with charitable contributions and that would include SCARS. I am not a CPA even though I am married to one, but I would encourage each of you to read this information from the IRS and take advantage of it to pay as little tax as you legally can do. We are getting to that time of year when we should all be looking at our gift giving to our favorite charities (*SCARS – hint- hint*). – Dave K4DMF

Gifts to Charity: Six Facts About Written Acknowledgements

Throughout the year, many taxpayers contribute money or gifts to qualified organizations eligible to receive tax-deductible charitable contributions. Taxpayers who plan to claim a charitable deduction on their tax return must do two things:

- Have a bank record or written communication from a charity for any monetary contributions.
- Get a [written acknowledgment](#) from the charity for any single donation of \$250 or more.

Here are six things for taxpayers to remember about these donations and written acknowledgements:

- Taxpayers who make single donations of \$250 or more to a charity must have one of the following:
 - A separate acknowledgment from the organization for each donation of \$250 or more.
 - One acknowledgment from the organization listing the amount and date of each contribution of \$250 or more.
- The \$250 threshold doesn't mean a taxpayer adds up separate contributions of less than \$250 throughout the year.
 - For example, if someone gave a \$25 offering to their church each week, they don't need an acknowledgement from the church, even though their contributions for the year are more than \$250.
- Contributions made by payroll deduction are treated as separate contributions for each pay period.

Tax Tip 2017-59*(continued)*

- If a taxpayer makes a payment that is partly for goods and services, their deductible contribution is the amount of the payment that is more than the value of those goods and services.
- A taxpayer must get the acknowledgement on or before the earlier of these two dates:
 - The date they file their return for the year in which they make the contribution.
 - The due date, including extensions, for filing the return.
- If the acknowledgment doesn't show the date of the contribution, the taxpayers must also have a bank record or receipt that does show the date.

Abstract:

Amateur radio is a hobby that encompasses the whole range of communications technology. It has existed since the time Marconi, Hertz and others began their experiments. It is the only hobby that is regulated by the government of every country in the world. To obtain their operating licenses, amateurs are required to pass a written examination in radio regulations and fundamentals of radio technology. More than a 1.5 million persons worldwide are licensed amateurs. Now, after 100 years, amateur radio is at a critical turning point. After a brief summary of how radio amateurs advanced the communication state-of-the art in the past, this paper discusses current problems facing amateur radio in the present and the potential for amateur radio in the future.
